

ACCELERATOR: **LEARNER-CENTERED INSTRUCTIONAL PRACTICES**

Bring learning to life with student-centered teaching.

Students crave more than surface-level education — relevant and engaging instruction fuels their desire to learn.

Learner-Centered Instructional Practices teaches educators to design active, collaborative lessons that encourage students to connect their learning to real-world challenges. You'll learn to weave together subject-matter content with teamwork and communication, so students feel uplifted by their lessons and in charge of their learning.

What You'll Get

Practical, Active Learning:

Learning together through *experiencing* NTN Learner-Centered Practices.

Tools for the Team:

Structured learning designed for groups of teachers, instructional coaches, and school leadership teams.

Proven Strategies:

Effective, research-backed approaches that have fostered deep learning in classrooms.

What You'll Do

Student Voice:

Practice protocols that give students ownership of their learning.

Instructional Strategies:

Develop engaging and effective classroom strategies for academic learning and essential skills development.

Collaborative Learning:

Share and calibrate on Learner-Centered Practices to develop college and career outcomes for students.

Design and Refine Plans:

Develop a learner-centered lesson plan, gather feedback and refine for implementation.

Impact

EMPOWERED EDUCATORS

94%

94% of NTN educators report improved processes for collaborative learning

90%

90% of educators say NTN professional development exceeds their learning goals, creating immediate and lasting changes in teaching practices

89%

89% of NTN educators say their professional learning consistently equips them to design equitable learning experiences that honor and build on each learner's unique strengths, assets, and identity

ENGAGED STUDENTS

NTN students outperform on state exams across multiple states, subject areas, and grade levels

Statistically significant results show that NTN students are more engaged in collaboration and peer feedback.

86%

86% of NTN students think collaboration time with other students makes classes better.

How It Works

- Duration: 1 day
- Investment:
Onsite: \$5,800 • Virtual: \$3,000
- Up to 35 participants
- Digital version of the NTN Practices Cards included

“

“New Tech Network (NTN) was selected as the partner for this work because of the depth in expertise in not just the instructional practices, but in the classroom culture, and that’s what we really wanted to address,”

Patrick Malley
NTN Leader
