

ACCELERATOR: **FOUNDATIONAL PRACTICES FOR NEW TEACHERS**

## Start strong with practical tools.

### Acclimating to the fast-paced and dynamic role of teaching can feel overwhelming. We're here to help.

Foundational Practices for New Teachers offers practical support and proven strategies to navigate the biggest challenges you'll handle in the classroom. Learn to apply learner-centered instruction, build student engagement, and create relationship-rich environments—so you can confidently bridge the gap between what you know and what you do.

#### What You'll Get

-  **Practical, Active Learning:**  
Learning together through *experiencing* NTN Learner-Centered Practices.
-  **Tools for the Team:**  
Gain access to resources that will improve student engagement strategies, and relationship-rich classroom practices.
-  **Proven Strategies:**  
Effective approaches that have fostered deep learning and reflection in classrooms.

#### What You'll Do

-  **Instructional Strategies:**  
Explore learner-centered and culture-driven instructional practices that enhance student engagement and deeper learning.
-  **Learn Collaboratively:**  
Experience hands-on simulations and guided discussions as models for the deeper learning classroom.
-  **Planning and Design:**  
Plan strategies that foster student agency, collaboration, and critical thinking.
-  **Reflect and Adapt:**  
Engage in reflection and peer collaboration, and identify how strategies can be adapted for different content areas, grade levels, and student needs.

## Impact

### EMPOWERED EDUCATORS

87%

87% of NTN educators highlight that their school structures are designed to ensure each student is aware, eligible, and prepared for post-graduation opportunities

94%

94% of NTN educators report that students actively engage in solving problems instead of just expecting to receive the answers

90%

Over 90% of educators say NTN professional development exceeds their learning goals, creating immediate and lasting changes in teaching practices

### ENGAGED STUDENTS

NTN students outperform on state exams across multiple states, subject areas, and grade levels

Statistically significant results show that NTN students are more engaged in collaboration and peer feedback

86%

86% of NTN students think collaboration time with other students makes classes better

91%

91% of NTN students believe they contribute positively to their school

## How It Works

- Duration: 1 day
- Investment:  
Onsite: \$5,800 • Virtual: \$3,000
- Up to 35 participants
- Digital version of the NTN Practices Cards included

“

*“I now think of myself more as a facilitator. I let the children guide me in what they need to know, which makes it more enjoyable to teach.”*
