

ACCELERATOR: **LEADING SCHOOL CHANGE**

Design Systems that Empower Students. Lead Change that Lasts.

Empowering leaders to design intentional systems that center student experience and drive meaningful, lasting change. By aligning vision with action, teams will leave equipped to lead with purpose and create schools where every learner thrives.

Enabling engaged teaching and learning while navigating complex changes creates a need for intentional systems within district and school teams. This one-day workshop equips leaders with a proven instructional leadership model, practical change management tools, and actionable strategies to transform schools, ensuring clear next steps toward authentic student experiences. District and/or school leaders leave with clear tools around vision, assessment, change management, and shared leadership, and a set of next steps to help start the journey to transform their school.

What You'll Get

Practical, Active Learning:

Immediate, real-world application of best practices that equips leaders with a proven instructional leadership model.

Insightful Strategies:

Actionable strategies to transform schools.

Tools for the Team:

Clear tools around vision, assessment, change management, and shared leadership.

What You'll Do

Discover Team Strengths:

Identify the strengths and opportunities for growth within their instructional leadership team.

Define a Shared Vision:

Clearly define a shared purpose driving their vision for school change.

Design a Change Plan:

Initiate the development of a strategic change plan aligned with their instructional vision.

Map Your Next Steps:

Create a set of next steps to help start the journey to transform their school.

Impact

Educators share that NTN's supports challenge the traditional rhythm of schooling prompting deep reflection on their beliefs, values, identities, and mindsets

94%

94% of NTN educators report improved processes for collaborative learning

90%

Over 90% of educators say NTN professional development exceeds their learning goals, creating immediate and lasting changes in teaching practices

ENGAGED STUDENTS

NTN students outperform on state exams across multiple states, subject areas, and grade levels

90%

90% of NTN students co-create culture agreements and expectations with their teachers

Statistically significant results show that NTN students are more engaged in collaboration and peer feedback

How It Works

- Duration: 1 day
- Investment:
Onsite: \$5,800 • Virtual: \$3,000
- Up to 35 participants

“

“Fostering shared leadership is an area of focused growth in our district. One of the reasons we decided to partner with New Tech Network is that they work with leaders as much as they do teachers, and we knew our goal was to push further on what shared leadership means for our district.”

Brandy New
